TO WHOMSOEVER IT MAY CONCERN

Dear Sirs,

We would like to appreciate the services of Mr. Venugopal Vijayakrishnan, who has been working at M/s. Bandar Imam Petrochemical Complex, Mahshahr, Iran as Maintenance Technical Consultant & Condition Monitoring Specialist for more than 3 years on behalf of M/s. Sana InfoTech and Industrial Services Company.

Through the Class room – Field Training provided for more than 40 officials (including Contractors) in Condition Monitoring & its effective Implementation at site, he brought in Cultural Change to maintenance practices at BIPC. He was also responsible for fixing the Vibration limits and for carrying out Criticality Analysis on Rotary equipments.

His in-depth knowledge and expertise in Predictive Maintenance has to a great extent helped us save money, time and reduce maintenance cost on many Critical Rotating equipment throughout the Complex.

He is very hard working and his conduct is Good. We wish him all the best during his future endeavours for the sincere efforts carried out.

For Bandar Imam Petrochemical Complex

Mohammad Javad Motamed
M. J. Motamed
Complex Maintenance Director
